Home Page

About Us

Contact Page

The basic introduction

The home page consists of login and si
gnup links, navigation bar, job informati
on and clients introduction.

The about page has the navigation as th
e home page, team introduction, projec
t introduction, team member' s email a
nd our advantages.

The upper part of the contact interface
has the same navigation bar as the hom
e page. On the left side, there is an inp
ut box for sending emails, and on the rig
ht side, there is a short company contac
t information.

Log in & Sign Up Page

Average Salary

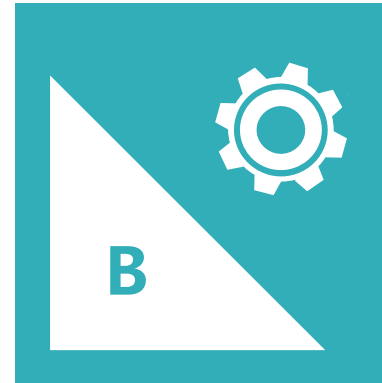

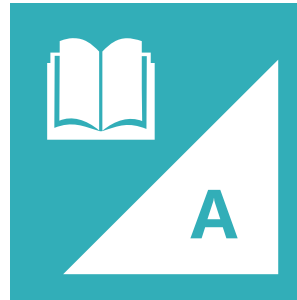

Company & Country Page

Between different countries

Company Profile

It is a general introduction about the company, the overall development trend and the advantages in the industry.

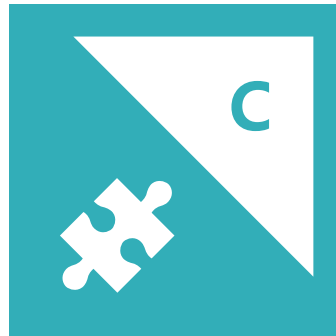

Country average salary

The list of different jobs in IS career and their salary. It clears the differences between countries.

Advantage of Employment

In this company, professional advantages are compared with others in the same industry, and some employee benefits are also added.

Skill Introduction

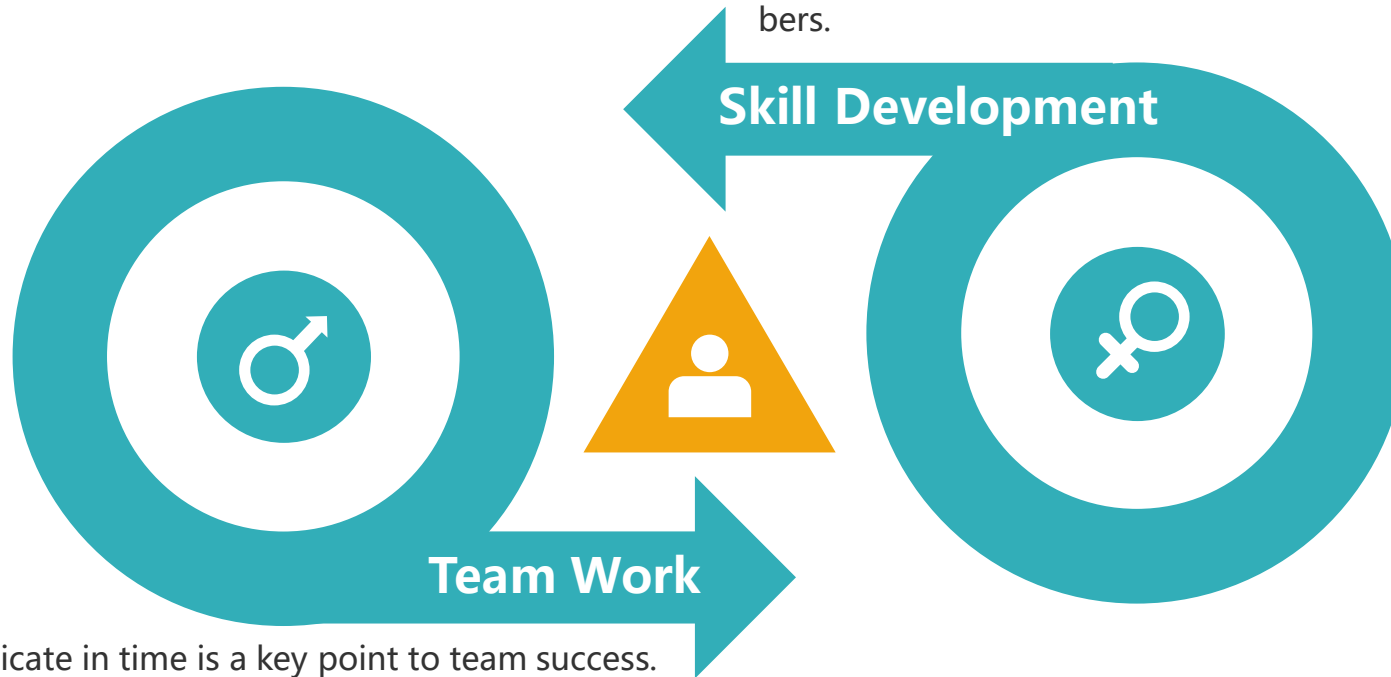

The different job requires different skills for IS students. There will be a chart and the relationship between them.

Conclusion

What we learn?

We improved our skills through the process of website made. The team improvement can not leave any members.

Communicate in time is a key point to team success. Weekly self evaluation helps us to know better about the work progress.

Thanks!
